ABOUT THE PROGRAM

- Advance your clinical expertise in modern esthetic dentistry through a scientific, evidence-based approach that connects current research with clinical practice.
- From digital smile design, adhesive dentistry, veneers, composites, restorative techniques, occlusion, and comprehensive treatment planning, the program covers a broad spectrum of esthetic dentistry.
- Hands-On courses and clinical case work allow you to apply what you learn and confidently integrate new techniques into your daily practice.

ADMISSION REQUIREMENTS

- Academic University Degree in Dentistry
- Valid License to Practice Dentistry
- Proof of English Proficiency at a Minimum B2 Level (e.g., TOEFL, IELTS, or equivalent)
- Two Letters of Recommendation from a Professor, Mentor, or Employer
